*** THESE PLATES (*except* 1, 2, and 4) ARE PRESUMED TO BE A COMPLETE SET, AND ARE THE PROOFS OF THE ENGRAVER, arranged by Haym, and revised by Martin Folkes. They contain remarks referring to those false coins which were detected in the Collection when brought on for sale, and which were probably taken from wood engravings owing to the difficulty of acquiring the original examples.

These proof corrections must necessarily be of great value to Collectors, as they identify and in some measure account for the introduction of false coins into so important a collection.
